DIV REST Registrations

Omschrijving

This service allows querying current data registered at the DIV. It returns data of the registration-domain including sub-domains license, certificate, titular and vehicle

Path : /mobivisData/rest/registrations

Get Parameters

Bold = verplicht

Parameters	
Header	
	Authorization
	Organisation
	Target-Organisation
	Target-Organisation-Description
	User-Organisation
	User-Organisation-Description
	Application
	User-Id
	User-Reference
	Accept-Language
Query	
	plateNr
	plateUID
	vin
	unifier
	certificateId
	nationalNr

	companyNr
	dateTime
	transactionUID
	pageSize
	after

Path : /mobivisData/rest/registrations/plateNumbers

Wordt enkel gebruikt door politie. Zal niet exposed worden door MAGDA
